

Learning Behaviours

At Caroline Haslett Primary School, we have 8 characters that help us remember the skills of an effective learner in all of our lessons.

The character for next week will be Eric the Enjoy Learning Elephant. Encourage your child to practise the skills listed below and be like Eric.

I feel proud of all my achievements.
I feel my neurons connecting.
I imagine my intelligence growing by the minute!
I use what I have learnt in real life.
I know I can do it if I have input and I practice

★ Enjoy Learning ★

Hi I'm Eric the 'enjoy learning' elephant.

I feel proud of all my achievements.
I feel my neurons connecting.
I imagine my intelligence growing by the minute!
I use what I have learnt in real life.
I know I can do it if I have input and I practise.

Year 6 Tudor Day

On Monday, Caroline Haslett was taken back in time to the Tudor period and was visited by lots of Tudor folk! Year 6 had a fantastic day enjoying everything Tudor. We started the day with some Tudor sewing followed by a banquet fit for King Henry VIII which was prepared by the Mekon staff. Feeling thoroughly stuffed, we worked it off with some Conrante dancing which was a popular Tudor dance. Safe to say, the children had a great day that will be remembered for years to come.

MK Netball Shield Winners

This term, the netball team have been very busy playing 15 netball matches against many of the best schools in MK. Their league position meant they qualified for the shield finals day. The team were victorious in all 6 matches finishing top of the table and winning the shield competition.

Congratulations to: Leila, Mia, Noah B-W, Noah W, Kamil, Levi, Fearne, Sheena and Sidra.

Digital Leaders

This week our digital leaders studied 45 anonymised applications of some incredibly worthy Year 5 candidates. We were so impressed by the skills and digital abilities demonstrated. The Digital Leaders took into consideration a lot of factors including how the pupils kept themselves safe online. We were really impressed by the amount of effort the children put into the application forms and wish we had more spaces available. If your application was not successful this time you will be kept on a waiting list.

A very warm welcome and congratulations to:

Why do you want to become a CHPS Digital Leader? *

I have always been interested in learning about technology and love spending my spare time learning more about how my Chromebook and Tablet work and the different things they can do. My dad works in technology and helps me understand how things work and what they can do. I am always interested in learning new things and would like to share my learnings with other children within the school. Learning more about technology is important for the future. Being a Digital Leader will help me do this and help others understand what the amazing things technology can do and help us with.

What is your favourite Computing activity from either home or school? *

At home I enjoy creating slide shows using my Chromebook for presenting to my family using Google slides. I create projects for things that I like or for helping me learn new facts about things for example koalas, space, weather, and building work. I also enjoy making Scratch projects and of course completing my weekly TT Rockstar targets. I love it when we get into groups and work together to make presentations.

From school I really enjoy learning about coding, how computers work and how to stay safe when online. I also love it when we get the raspberry pi's out. Listening in computing about digital footprints makes me inspired. I take what I have learnt at school and enjoy sharing this with my family at home, describing and showing them what I do in computing.

Give an example of something that you are responsible for either at home or school. *

At home I look after my own Chromebook and tablet, keeping them charged up so that they work when I want to use them. I always take good care of the laptops used at school as I know they don't belong to me and that I only borrow them for computing as everyone likes to use them as well as me.

What skills do you have that will make you a good Digital Leader? *

I like talking with everyone at school and think that I am creative with a good imagination. Using this I can share my passion for using technology with others. I am keen to share my technology skills and help other children if they are stuck or want to learn new skills. This term I have also joined the STEM club after school because I am really interested in learning more skills in this subject.
